

## COVID19 Update

*3/17/2020*

A quick update from Summerhill Goat Dairy on the measures we are taking during this COVID19 crisis to ensure the safety of both our employees and our customers. Rest assured, milk production and processing will continue, and our products will continue to be made available to our customers during this time.

We have always adhered to the strictest standards of sanitation and continue to follow all practices and procedures recommended by our regulatory agencies. We continue to monitor their updates and recommendations.

Additionally, we have cancelled all tours and restricted access to our dairy and creamery to only the essential personnel absolutely necessary to continue operations.

Stay safe and be well!
